WHY STUDY WITH US

UNIVERSITY PATHWAYS

Articulation and other arrangements are in place with several universities and other higher education providers. These enable our graduates of the Diploma and Advanced Diploma courses to be considered for advanced standing for their university studies, in Australia and also in Europe and the USA - the savings in time and money can be substantial. Selection criteria may vary. Arrangements are also in place with professional associations which our students and graduates may join.

LONG HISTORY

Established in 1908 Academies Australasia has been operating for more than 112 years. It has a long and successful history in education – going back in excess of 50 years.

Listed on the Australian Securities Exchange more than 43 years ago, it is Australia's longest listed education group. Public listed status means that apart from having to meet the well regarded and carefully supervised standards of the international education market, our colleges must also comply with the strict financial and reporting regulations of the ASX.

HANDS-ON LEARNING

Hands-on experience is always an excellent way to complement and reinforce what is learnt in class. We continually seek opportunities to give students relevant practical experience. Examples of this are the work placements as part of the Early Childhood courses and the paid internship programme that our tourism and hospitality students enjoy in Singapore.

WELFARE AND STUDENT SUPPORT

We offer counselling services to assist students with academic issues as well as matters arising from adjusting to life in Australia. Where required, we can also arrange carers for students under the age of 18 years during their period of study or until they turn 18. It is the Colleges' policy to assist students with special needs to ensure their comfort and convenience are optimised. We also provide students with a challenging and rewarding experience in a great learning environment. The colleges offer well equipped, modern classrooms, free wireless access and computer access in our student lounges.

QUALITY TEACHING

Quality is at the core of everything we do. Our courses are nationally accredited and are developed in partnership with industry and professional associations. Our teachers are dedicated and passionate with a strong commitment to quality. Some of them also teach at several universities.

STUDENTS FROM AROUND THE WORLD

Over the years we have had students from 132 countries and that number continues to grow. Our current student body of approximately 5,000 students includes students from all over the world. This diversity provides an interesting learning environment in which many racial, cultural and religious groups are represented.

LIVE in AUSTRALIA

Australia is a young and vibrant country – and we engage with the world with positivity, determination and a keen sense of what's possible. It's a resolute spirit that goes right through to our approach to teaching and learning – to inspire confidence, create real-world skills, and encourage independent thinking, teamwork and leadership.

COST OF LIVING

The Australian Government estimates that the average living costs for an international student is at least A$21,041. This pays for food, accommodation, telephone, gas, electricity, transport and entertainment. Your living costs could be higher or lower than this, depending on where you study and your lifestyle. For example, Sydney is generally more expensive than other cities in Australia.

SCHOOL AGED DEPENDENTS

If you have school-aged dependents (i.e. unmarried children between 5 and 18 years old) accompanying you to Australia for more than three months you are required to ensure that adequate arrangements have been made for their schooling. Your dependents will be charged the full school fee if they are enrolled in either a government or non-government school.

WORK

As an international student you are permitted to work up to 40 hours per fortnight during academic terms and full time during holidays, provided that work does not interfere with your studies. You should ensure you are financially independent before coming to Australia.

ACCOMMODATION

Homestay is when you live with an Australian family in their home. The homestay family provides you with meals, laundry facilities and your own room with a study desk. You are usually asked to share some household chores. Homestay also gives you the chance to practise your English at home every day. This service can be arranged with your enrolment.

OTHER ACCOMMODATION

Hostels provide a friendly, safe, supervised environment. You get your own room or a shared room. Dining room, games room and television room are communal. Many hostels also provide meals.

Shared Accommodation gives you more freedom. You can share a room, house or apartment depending on your budget. Usually you'll need to supply your own furniture. You also have to supply your own towels, pillows, sheets and blankets.

Studio apartments or one-bedroom apartments are smaller and less expensive to rent than larger apartments, but it is a good option if you are more independent and need your own private space.

ESOS FRAMEWORK

Australia's laws promote quality education and consumer protection for overseas students. These laws are known as the ESOS Framework and they include the Education Services for Overseas Students (ESOS) Act 2000 and the National Code.

For more information about the ESOS Framework go to https://internationaleducation.gov.au/Regulatory-Information/Documents/ESOSFrameworkfactsheetfinaldraft9May2014(2).pdf

HEALTH

Overseas Student Health Cover (OSHC) is compulsory for international students studying in Australia.

What does OSHC provide?

- It covers international students for certain medical costs (e.g. doctor's visits or admission to hospital).
- Extra cover is available for an additional fee.
- Serious medical problems should be treated before you come to Australia, since standard OSHC generally does not cover pre-existing medical conditions.

It is wise to read the OSHC policy with care to see if additional cover is needed.
